## 2004 Yearlings

### 2004 Yearlings

The 2004 yearling crop featured a milestone Muscles Yankee auction performance in which several sons and daughters attracted final bids in excess of \$100,000 highlighted by the \$300,000 attracted for Ginstripes the “bigger stronger” full brother to Incredible Hulk. Whereas consummate results will not be evident for at least two years due to the early stages of training, expectations are that it will prove one of the stronger Perretti yearling offerings on record. The crop also featured the initial offerings from Dream Vacation a horse with every right to be a top stallion given speed inheritance from his brilliant pedigree. At this early stage, The Dream Vacations have broken well and look to be of high quality. We’ll update this area come Summer.

### Colts
