THE LOGICAL **EVOLUTION** FOR THE TROTTING BREED

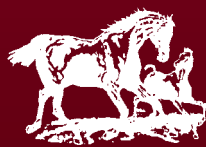

Historically our thoroughbred cousins have reached across the pond to import significant **European** champions, many of whom made **milestone outcross** contributions to the exiting genetic pools. So too will Revenue, the pipeline to trotting's future. A true international champion and a pure trotter sired by a true international World Champion Reve D'Udon, winner of \$2,166,910 and the 1990 Roosevelt International (at Yonkers) in a World Record 2:28.3h. From a true champion sire line—Revenue's great grandsire Kerjacques sired international superstars Une De Mai 2:00.1f (\$1,834,274) and Jorky, winner of \$1,970,432. He is from the powerful American maternal family of the legendary Speedy Scot who via his son Speedy Crown, recreated the trotting breed as we know it today.

Revenue is indeed a "step into trotting's future"—if a horse can transmit what he himself possessed, then the produce of Revenue will have not only the precocity for extreme early speed but also the stamina to sustain it into his aged form. Revenue himself has world class speed, world class stamina and impeccable conformation. As you can see he is a **pure trotter** wearing **no boots** and a minimum of equipment. In addition, the produce of Revenue and American broodmares will have that vital 25-75 percent French American dosage ratio that international experts cite as the correct combination to produce current and future superstars...

His first foals will sell this year and they are **UNIFORMLY** spectacular.

Fee \$5,000
